

The J2 USA LLC Joint Venture

J2 Engineering, Inc. (J2), a Service-Disabled Veteran - Owned Small Business (SDVOSB) offering Environmental and Construction Services, and **USA Environmental, Inc.** (USA), a small business offering Military Munitions Response Program (MMRP) Services, have formed a joint venture company, **J2 USA LLC**. Both companies have a professional relationship spanning 10 years and 37 jointly worked projects. Both companies are headquartered in the Tampa Bay Area, with home office just located four miles apart. J2 USA LLC is a **Service-Disabled Veteran-Owned Small Business** (SDVOSB).

J2 USA LLC Team Members Participate in Contract Kick-Off Meeting

This Joint Venture was formed in order to provide comprehensive Environmental, Construction and MMRP services to the U.S. government and private industry. J2 USA LLC leverages the complementary capabilities and experience of the two companies, creating a single business entity that can respond quickly and effectively to any requests where multiple services are required. J2 USA LLC is a highly experienced prime contractor, its members having successfully performed over 150 environmental projects and over 600 MMRP projects valued at over \$540 million at installations worldwide. Our management experience is demonstrated through the execution of 24 prime contracts with USAEC, U.S. Air Force, U.S. Navy, DOE, U.S. Coast Guard, U.S. Department of Homeland Security, U.S. Army Corps of Engineers, Veterans Administration, U.S. Fish & Wildlife Service, and the National Park Service, seamlessly managing as many as 75 concurrent task orders.

The Environmental Remediation Multiple Award (ERMA) J2/USA Environmental Joint Venture Team

ERMA Contract Overview

In 2012, J2 USA LLC was awarded one of the Environmental Remediation Multiple Award (ERMA) contracts from the U.S. Army Environmental Command (AEC) in support of environmental cleanup at Army installations. The ERMA contract supports a broad spectrum of the Army's Environmental Cleanup Strategy. J2 USA LLC was one of nine companies awarded this contract under the Small Business Portfolio. The total shared contract value for this Portfolio is \$240M with individual task orders competed within the Small Business contractor pool. The period of performance for the ERMA contract is 1 base year and 3 option years.

J2 USA LLC will provide wide range of investigative, remedial design, remedial action construction, and other remediation services required for sites involving hazardous or toxic substances and waste, Munitions and Explosive of Concern (MEC), low-level radioactive and mixed waste, and Chemical Warfare Materiel (CWM) under this contract.

The J2/USA LLC ERMA Team

Joint Venture Partners

J2 Engineering , Inc. (J2) - J2 is designated as Managing Partner of this Joint Venture. J2, a Service-Disabled, Veteran-Owned Small Business (SDVOSB) firm offers comprehensive construction management and environmental services for both the private and public sectors.

Since its inception in 2001, J2 has served federal, state, municipal, and private sector clients in environmental, construction, transportation, industrial, military, power, and infra-

structure services. J2's expanding group of professionals are located in 15 regional and field offices nationwide, supporting a wide range of clients.

Monitoring Well Assessment

Over the past 5 years, J2 has performed over 350 remediation and construction projects valued at over \$325M, including \$45M in environmental projects for USACE and other federal clients. J2 currently hold eight prime contracts with USACE and contracts with the U.S Air Force, U.S. Navy, U.S. Coast Guard, Veterans Administration, U.S. Fish and Wildlife Services, National Park Service, and state and local agencies.

USA Environmental, Inc. (USA) - USA is J2's Joint Venture partner. USA, a small business under NAICS 562910, provides services to government and private sector clients worldwide for remediation of MEC, including Unexploded Ordnance (UXO). Incorporated in 1998 as a Small Business and headquartered in Oldsmar (Tampa Bay), Florida, USA is a full-service Military Munitions Response Program (MMRP) provider.

USA has over 14 years of experience in MMRP services, including assessment and remediation. USA has performed every type of MMRP-related project, from investigation to removal of MEC and UXO.

Since incorporation in 1998, USA has safely and successfully completed over \$550M of MMRP work and has contracted for over 660 MMRP projects/task orders. USA performs Munitions Response work both as a prime contractor and subcontractor primarily for the U.S. Government including the U.S. Army and Navy.

MEC Demolition Preparations

USA has performed work in most United States, Canada, Iraq, Japan, South Korea, the Virgin Islands, Saipan, Guam and Puerto Rico. The company employs over 250 personnel, including all UXO-related labor categories to safely perform work under our Munitions Response business areas.

Team Member

CDM Smith (CDM) - J2 USA LLC will self-perform the vast majority of work under this contract and has strategically teamed with our Key Team Subcontractor CDM to augment our skills and capabilities to provide USAEC with a full-service ERMA Team. CDM is responsible for certain remediation services involving hazardous or toxic substances and/or surge support for Remedial Action Operations (RAO) or Long-Term Monitoring (LTM) as defined under the ERMA contract. J2-USA LLC has selected CDM as our **Key Subcontractor** to provide Hazardous, Toxic or Radioactive Waste (HTRW) and Low-Level Radioactive (LRAD) waste services; related risk assessment services; and regulatory support.

CDM is a global consulting, engineering, construction and operations firm helping the U.S. Government and other clients to meet their high priority needs related to water, environment, transportation, energy, and facilities. Founded in 1947, CDM employs more than 5,600 staff in 147 locations around the world. Our joint working experience with CDM spans over a decade on ERMA-related projects.

Specialists and Vendors

J2 USA LLC has specialists and vendors available to supplement the team's capabilities. These include Test America and Columbia Analytical for laboratory analysis. J2 USA LLC also selected a pool of collective bid subcontractors for specialized services such as drilling and archaeological services. J2 USA LLC intends to use local, small businesses with prior Army experience for other specialty services as needed, for individual projects under the contract.
