

Successful Project Execution

Following is a partial list of projects completed by SERES, USA, and working jointly.

UXO Clearance Work, Former Conway Bombing and Gunnery Range, SC.
Client: New Harmony Presbytery

UXO Escort Work, Quantico, VA.
Client: U.S. Navy, NAVFAC Atlantic

UXO Escort Work, Ft. Bragg, NC.
Client: USACE, Savannah

Pollution Prevention, Warner Robins, GA
Client: U.S. Air Force

Environmental Awareness Training, Ft. Benning, GA
Client: U.S. Army

Oil/Water Separator Maintenance, JB Charleston, SC
Client: U.S. Air Force

Small Arms Range Maintenance, JB Charleston, SC
Client: U.S. Air Force

Hazwaste Coordination / Facility Support, FLETC, Charleston, SC
Client: U.S. Coast Guard

Facility Upgrade, FLETC, Charleston, SC
Client: National Oceanic and Atmospheric Admin.

Environmental Services, Ft. Bragg, NC
Client: U.S. Army

3R's Community Education: Motlow, Spencer, Sibert, and Wheeler
Client: USACE, South Atlantic Division

MEC Removal Action, Camp Butner, NC,
Client: U.S. Army

RI/FS at Former Brooksville Turret Gunnery Range (BTGR), Brooksville, FL
Client: USAESCH

Removal Action, Fort Stewart, GA and Fort Jackson, SC
Client: USAESCH

MEC Removal & Associated Activities, Vieques Naval Training Range, Vieques, PR
Client: U.S. Navy, NAVFAC Atlantic

Contracts

UXO Removal Service, Former Conway Bombing and Gunnery Range, Conway, SC
Client: New Harmony Presbytery (2013)

Hazardous Waste Management Services, (Awarded 2014)
Client: U.S. Coast Guard (Charleston Station)

Environmental Technical Services, (Awarded 2013)
Client: U.S. Navy, NAVFAC Southeast

Sustainment, Restoration and Modernization Support, (Awarded 2014)
Client: USACE Savannah District

Maintenance of oil/water separators, grease traps, sand traps and lift stations, (Awarded 2014)
Client: U.S. Air Force, Joint Base Charleston

Restoration Construction, (Awarded 2014)
Client: National Oceanic and Atmospheric Administration

Worldwide Environmental Remediation Services (WERS), (Awarded 2010)
Client: USACE, Huntsville

Range Sustainment, MMR, Env. Compliance & Rem. Services (RS2), (Awarded 2012)
Client: U.S. Navy, NAVFAC Atlantic

Munitions Response Actions, Vieques and Other Sites, (Awarded 2010)
Client: U.S. Navy, NAVFAC Atlantic

Environmental Remediation Multiple Award (ERMA), (Awarded 2012)
Client: U.S. Army Environmental Command

**Serving the US Army, US Navy,
US Air Force, and Other
Federal and DoD Agencies**

Full Service Team Capabilities

The SERES - USA JV LLC is an 8(a) Small Business performing comprehensive Environmental, MMRP, Safety, and Construction services to federal, state, local and DoD agencies. Our JV was created to pursue related procurements under NAICS code 562910 - Remediation Services.

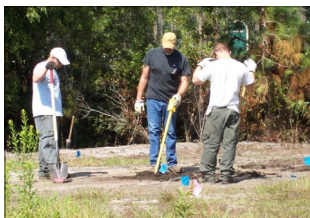

The JV is a highly experienced prime contractor, its members having successfully performed more than 776 MMRP projects, and over 30 environmental projects and restoration projects valued at over \$555 million at installations worldwide. Our management experience is demonstrated through the execution of 13 prime contracts with clients including the U.S. Army Corps of Engineers, U.S. Air Force, U.S. Navy, EPA, U.S. Coast Guard, General Service Administration, National Park Service, and others. The JV was structured to seamlessly manage as many as 50 concurrent task orders.

SERES - USA JV, LLC leverages the complementary capabilities and experience of our two companies, creating a single business entity that can respond quickly and cost-effectively to any request, especially where multiple services are required.

Who We Are

SERES Engineering & Services, LLC, is Managing Lead of the JV, and a minority-owned environmental, munitions response, and engineering consulting firm. Established in 2007, SERES employs 19 personnel. Services provided include:

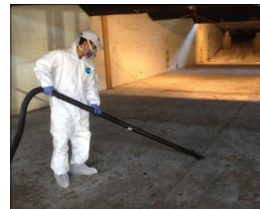

- Munitions Response: Planning documents and stakeholder interface in support of investigation and clearance of former munitions sites under the Military Munitions Response Program (MMRP); Active range clearance/sustainment support and construction projects including Unexploded Ordnance/Munitions and Explosives of Concern (UXO/MEC) avoidance; Identification and clearance and MPPEH demilitarization; Waste characterization, packaging and disposal.

Excavating
Required Targets**

SERES Engineering & Services, LLC, (con't)

- Safety-Related Services: development of safety program documents, HASPs, APPs and safety compliance; occupational health management assistance; ergonomic engineering/analysis; and health & safety training.
- Environmental restoration services: site investigations and assessments; UST/AST removal; remedial investigations; feasibility studies; remedial design; and corrective action implementation.
- Environmental related operational compliance: pollution prevention; hazardous waste management/disposal service; regulatory compliance; development and implementation of environmental programs; planning; permitting; reporting, O&M; and environmental recordkeeping.

**SERES Small Arms
Range Maintenance,
USAF, JBC**

USA Environmental, Inc., a small business, provides MEC characterization and environmental remediation services to government and private sector clients CONUS and OCONUS. Founded in 1998, USA employs 200 personnel, including all UXO-related categories.

- Munitions Response Services: MEC characterization, remediation, and disposal; preliminary assessments, site inspections; remedial investigation/feasibility studies; record of decision; remedial design/remedial action, remediation, disposal, and range sustainment.
- Operational Range Clearance/Maintenance: Debris removal, range maintenance & target replacement, including active range condition assessments and target/berm maintenance.
- UXO/MEC Avoidance: Construction support, and HTRW investigations.
- Chemical Weapons Materiel (CWM) Sampling and Removal Services: CWM capabilities encompass full life-cycle support efforts to access, contain, and dispose of any materials.

**USA Investigating
Anomalies,
Camp Butner, NC**

USA Environmental, Inc. (con't)

- Geophysical Services: Digital Geophysical Mapping (DGM), GPS Surveying, & GIS Mapping, in both terrestrial and underwater environments, including the support and use of Vehicular Systems. Working experience with Advanced Classification equipment, software, and analyses.
- Underwater UXO Support: UXO Dive Teams, DGM, and Remotely Operated Vehicle (ROV) are capable of MEC detection, identification, and characterization; removal actions, surveys, structural investigations, and marine habitat assessments.
- Community Education: Public involvement & outreach, and on-site training, including task order support.
