SOLICITATION NUMBER: N69450-13-R-0017

CONTRACT PROGRAM MANAGER:

Michael Orcino, P.E., 3E Consultants, Inc.
7320 Narcoossee Road, Suite A
Orlando, Florida 32822

PERFORMANCE DATE: Indefinite Delivery Indefinite Quantity
(IDIQ) multi-year

MAXIMUM VALUE: \$7,500,000

CONTRACT LOCATION: Naval Facilities Engineering Command
(NAVFAC) Southeast geographic area of responsibility

CONTRACT TYPE/DESCRIPTION: Architect-Engineer
services for Hazardous Material and Waste
Management Engineering Services

CONTRACTING OFFICE: Department of Navy,
Naval Facilities Engineering Command (NAVFAC) Southeast

Our quality of work, presented in hazardous materials management services to federal, municipal, and private-sector clients, is evidenced by a long history of repeat clients and continuing contracts. This includes over \$300 million of environmental compliance, engineering, and remediation contract work at over 40 DoD installations located within the NAVFAC Southeast AOR.

Our depth of experience and our team's unique and compatible technical abilities and strengths mean 3E performs the NAVFAC Southeast way—responsively, fluidly, and capably. This includes extensive experience with the Navy and Marine Corps. Over the last 10 years, our project team has successfully completed over 200 task orders at over 50 Navy and Marine Corps facilities worldwide.

KEY SUBCONTRACTORS

SERVICES PROVIDED UNDER THIS CONTRACT WILL INCLUDE PREPARATION OF STUDIES, PERMITS, PLANS, DESIGNS, SPECIFICATIONS, REPORTS, COST ESTIMATES, AND PERFORMANCE OF ALL ASSOCIATED ENGINEERING SERVICES IN SUPPORT OF A VARIETY OF ENVIRONMENTAL PROGRAMS SUCH AS...

- Resource Conservation and Recovery Act (RCRA)
- Hazardous Waste
- Solid Waste
- Regulated Medical Waste management
- Soil, water, sediment, gaseous sampling, analysis, and monitoring (including all statistical evaluations)
- Soil gas surveys
- Monitoring well installations/well testing
- Groundwater modeling and geophysical contamination migration
- Risk assessments and air modeling
- Designs for environmental closure actions, removal actions, and restorations
- Hazardous Material database management
- Consolidated Hazardous Material Reutilization and Inventory Management Program (CHRIMP)
- Pollution Prevention
- Post Construction Award Services
- Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA)
- Environmental restoration
- Range sustainment
- Other Environmental Liabilities (OEL) programs
- Environmental Management System (EMS)

All this, supported with a spectrum of environmental document reviews and development of studies providing specific strategies and recommendations. From hazardous waste plans and studies to contingency and decontamination plans, and from corrective measures studies to remedial action plans—3E knows Environmental documentation.

"I can rely on 3E to provide innovative and technically sound proposals at a fair and reasonable cost, execute the approved work scope within budget and schedule requirements, and provide solutions to issues before they become problems."

Mobile District

3E HAS A VAST CATALOG OF PROJECT EXPERIENCE, SHOWING HOW WE'RE EXCEEDING EXPECTATIONS EVERY DAY.

We believe that success is defined as more than simply meeting the specifications of a job. Our team's philosophy is not that expectations should merely be met; expectations should be exceeded every time. It's not about doing the job; it's about doing the job better and adding value.

Our 6S System—Goals, Scope, Budget, Schedule, Roles, Safety, Quality—is designed to deliver success on every project and blends field-tested project management expertise with the creativity of our project team to deliver superior results and value. At each stage of the process, our core principles of excellence, creativity, and quality are reinforced.

The result is a quality product that exceeds expectations every time. That is how we define success: Exceeding Expectations Every day.

"3E was time conscious as well as cost effective when evaluating and selecting alternative remedial strategies that resulted in over \$100,000 of cost savings and years of remediation implementation."

Project Manager US Department of Veterans Affairs
